

# Gymnasium Usage by Non-District Groups

The Board supports the community education concept, which encourages the use of school district facilities by community members for education, recreation and service activities. The Board believes that district educational and extracurricular programs shall have priority over other community uses, and has directed the administration to develop regulations governing building and facility use by community groups and/or individuals. The Board reserves the right to assess fees for community use of district facilities. Rates will be determined by the district building use committee and will be reviewed and updated as necessary.

To make gymnasium usage more equitable to all outside users, the following schedule will be used for all gymnasium rentals. Availability of gymnasiums may be reduced due to school schedules. Gyms are not available during the summer months.
