#### **INDEPENDENT AUDITOR'S REPORT**

To the Board of Directors Jefferson School District No. 509J, 445 SE Buff Street, Madras, OR 97741

#### **Report on the Audit of the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, and each major fund, of the Jefferson School District No. 509J as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Jefferson School District No. 509J's basic financial statements, as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, of Jefferson School District No. 509J as of June 30, 2024, and the respective changes in financial position in accordance with accounting principles generally accepted in the United States of America.

#### **Basis of Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Jefferson School District No. 509J and meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson School District No. 509J's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statement, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Jefferson School District No. 509J's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Jefferson School District No. 509J's ability to continue as a going concern for a reasonable period.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of revenues, expenditures, and changes in fund balances – budget and actuals, and the pension and OPEB schedules are presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the management's discussion and analysis and the pension and OPEB schedules in accordance with the auditing standards generally accepted in the United States of America, which consisted principally of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The schedules of revenues, expenditures, and changes in fund balances – budget and actuals are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The schedules of revenues, expenditures, and changes in fund balances – budget and actuals have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of revenues, expenditures, and changes in fund balances – budget and actuals are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Jefferson School District No. 509J's basic financial statements. The supplementary information is presented for the purpose of additional analysis and is not a required part of the basic financial statements of the Jefferson School District No. 509J.

The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain other procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects concerning the financial statements taken as a whole.

#### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections, and additional schedules listed in the Other Information section of the Table of Contents but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion of any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basis financial statements, or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

The schedule of expenditures of federal awards, as listed in the Table of Contents, is presented for purposes of additional analysis as required by the Oregon Department of Education and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements.

#### Reports on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated December 24, 2024, on our consideration of the Jefferson School District No. 509J's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of these reports is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. The reports are an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jefferson School District No. 509J's internal control over financial reporting and compliance.

In accordance with the *Minimum Standards for Audits of Oregon Municipal Corporations*, we have issued our report dated December 24, 2024, on our consideration of the Jefferson School District No. 509J's compliance with certain provisions of laws and regulations, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules. The purpose of that report is to describe the scope of our testing of compliance and the results of that testing and not to provide an opinion on the District's compliance.

Roseburg, Oregon December 24, 2024

# MANAGEMENT'S DISCUSSION AND ANALYSIS

#### Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

The discussion and analysis of Jefferson School District No. 509J's financial performance provides an overview of the District's financial activities for the fiscal year that ended June 30, 2024. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the basic financial statements and notes to enhance their understanding of the District's financial performance.

#### FINANCIAL HIGHLIGHTS

Key financial highlights for the fiscal year ended June 30, 2024, are as follows:

- The District's net position increased by \$13,499,981, reflecting a total net position of \$31,763,779.
- Total liabilities as reported on the statement of net position decreased by \$11,764,768 during the year primarily due to a decrease in Net Pension Liability and Bonds Payable.
- Total assets as reported on the statement of net position increased by \$6,807,873. Capital assets increased by \$14,513,983 due to construction projects.
- The general revenues accounted for \$46,022,071 (62.8%) of all revenues. Program-specific revenues in the form of charges for services, and grants and donations accounted for \$27,237,278 (37.2%) of total revenues of \$73,259,349.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

Management's Discussion and Analysis introduces the District's basic financial statements. The basic financial statements include: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes additional supplementary information to supplement the basic financial statements.

Government-wide Financial Statements

The first of the government-wide statements is the Statement of Net Position. This is the District-wide statement of financial position presenting information that includes all the District's assets and liabilities. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District as a whole is improving or deteriorating. Evaluation of the overall economic health of the District would extend to other non-financial factors such as the condition of school buildings and other facilities and changes in the district's enrollment, which dictates the majority of revenue to be collected through the State Funding Formula.

#### Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

The second government-wide statement is the *Statement of Activities* which reports how the District's net position changed during the current fiscal year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the *Statement of Activities* is to show the financial reliance of the distinct activities or functions of the District that are primarily supported by intergovernmental revenues, principally state basic school support and property tax revenues. The governmental activities of the District include instruction, instructional support services, operation and maintenance of plants, student transportation, and non-instructional support services.

#### Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, Fund Financial Statements focus on the District's most significant funds rather than the District as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of individual budget versus actual statements and combining statements in a later section of this report.

Governmental funds focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. Unlike government-wide financial statements, these statements report short-term fiscal accountability focusing on the use of spendable resources during the year and balances of spendable resources available at the end of the fiscal year.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to government-wide statements to assist in understanding the differences between these two perspectives.

Fiduciary funds such as private-purpose trust funds for scholarships are reported in the fiduciary fund financial statements but are excluded from government-wide reporting. Fiduciary fund financial statements report net position and changes in net position on a cash basis.

#### Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin immediately following the basic financial statements.

#### Other Information

In addition to the basic financial statements and accompanying notes, this report also presents as required supplementary information budgetary comparison statements for the General Fund and the Special Revenue Fund. The required supplementary information immediately follows the notes to the financial statements. Other supplementary data includes combining statements, individual fund statements and schedules, and other schedules. These statements and schedules immediately follow the required supplementary information in this report.

Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

#### FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

Recall that the Statement of Net Position provides the perspective of the District as a whole. Net position may serve over time as a useful indicator of a government's financial position.

The District's net position at fiscal year-end was \$31,763,779. This is a \$13,499,981 increase from last year's net position, representing a 73.9% increase overall.

The following table provides a summary of the District's net position. Comparative information from the previous year is provided.

**Summary of Net Position**

#### Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

The Statement of Activities shows the cost of program services and the charges for services, grants, and contributions offsetting those services. The following table shows, for governmental activity, the total cost of the four major functional activities of the District. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions. Prior-year information is provided for comparative analysis.

The dependence on general revenues for general government activities is apparent. For the current year, 66.4% of general government activities are supported through general revenues.

Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

This graph represents the cost of the District's Program expenses by governmental activities.

The following chart analyzes the revenue between governmental activities from before the current year.

Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

#### FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the District's governmental funds is to provide information on short-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unreserved fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$39,029,602. The fund balance consists of restricted and unassigned amounts. Of the current fund balances, \$12,599,321 is restricted, and \$26,367,341 is unassigned and available for spending at the District's discretion.

The General Fund is the principal operating fund of the District. The fund balance in the General Fund for the fiscal year-end was \$26,367,341.

#### **BUDGETARY HIGHLIGHTS**

Over the year, the District made only minor changes to its various funds' budgets.

The General Fund revenues were budgeted and anticipated to be collected in the amount of \$40,962,877 during the fiscal year. Actual revenues of \$43,866,639 were more than budgeted revenues by \$2,903,762. The General Fund expenditures budget was under-spent by \$2,521,487. The actual ending fund balance was more than the budgeted ending fund balance by \$9,068,483.

The Special Revenue Fund revenues were \$3,132,764 less than budgeted. However, expenditures were \$3,363,680 less than budgeted, resulting in an ending fund balance of \$469,729. This reflects an increase of \$31,644, despite the revenue deficit.

The Debt Service Fund #300 ending fund balance decreased by \$124,997. Actual revenues were less than budgeted revenues by \$41,000, and actual expenditures were \$3 less than budgeted expenditures.

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2024, the District reported an addition of \$21,031,208 in capital assets, encompassing school buildings, athletic facilities, land, vehicles, computers, and various equipment and furnishings before the deduction of accumulated depreciation. The total recorded value of capital assets, before applying depreciation, amounts to \$110,250,555. This increase of \$21,031,208 includes new additions of depreciable capital assets \$4,766,185, of which \$3,955,042 is a result of completion of construction in progress assets from the prior year. The remaining increase in capital assets of \$16,265,023 is for construction in progress assets, that are not considered depreciable until completed and placed into use.

Total depreciation expense for the year was \$2,562,183. Additional information on the District's capital assets can be found in the Capital Asset Note in the notes to the basic financial statements section of this report.

Management's Discussion and Analysis (MD&A) For the Fiscal Year Ended June 30, 2024 Unaudited

#### **CAPITAL ASSETS AND DEBT ADMINISTRATION (Cont.)**

Long-Term Debt

As of June 30, 2024, the District had \$82,124,235 in long-term debt outstanding. District bonds also carried \$2,212,972 of Bond Premium. The District paid \$4,740,483 toward the principal balance and paid \$2,306,037 in interest of the long-term debt. Bond Premium was reduced during the year by \$224,949.

Additional information on the District's long-term debt can be found in the Long-Term Debt Note in the notes to the basic financial statements section of this report.

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The adopted \$108,932,476 budget for 2024-25 reflects the Board of Directors and community's priorities, aligning with 509J's Strategic Path Forward. This five-year plan emphasizes the district's core values: "Students Flourish Here," "We Care for Each Other," and "Better Every Day."

Resources include general funds, sub-funds, grants, and strategic initiatives. While no major new investments are included due to enrollment challenges and other constraints, this budget remains focused on nurturing every student's educational journey.

The following are highlighted priority investments:

- Operational costs for a dual (Spanish English) language program
- 3 total FAN advocates serving students and families
- Enhanced summer school programming for all students
- Smaller than historical class sizes
- Music teachers in all schools (except Big Muddy)
- Strong CTE programs that are increasing in depth of student experiences
- Language and cultural instruction and support.

The district plans to balance these priorities while facing the following challenges:

- Enrollment numbers below levels in recent years
- Immediate and pending retirement of one-time funding resources
- Historic and volatile levels of inflation and impacts on costs of goods and service provision
- Facility needs that were not included in the recent successful \$24 million GO bond
- Staff shortages and resulting historically high increases in cost of personnel
- Supply chain and construction labor shortages impacting bond projects
- Uncertainty of statewide funding levels going forward

The District will levy its maximum permanent property tax rate of \$4.5871 per \$1,000 of assessed property valuation.

#### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives.

If you have any questions about this report or need additional information, contact the Jefferson School District No. 509J at 445 SE Buff Street, Madras, OR 97741.

|   |               | 602,067        |
| Change in Net Position of Governmental Activities   |               | \$13,499,980   |

## BASIC FINANCIAL STATEMENTS

Notes to the Basic

Financial Statements

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

Jefferson School District No. 509J was organized under the provisions of Oregon Statutes pursuant to ORS Chapter 332 for the purpose of operating elementary and secondary schools. The District is governed by a separately elected five-member Board of Directors who approve the administrative officials. The daily functioning of the District is under the supervision of the Superintendent. As required by generally accepted accounting principles, all activities of the District have been included in the basic financial statements.

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**

The basic financial statements of Jefferson School District No. 509J have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the government's accounting policies are described below.

#### Reporting Entity

In determining the financial reporting entity, Jefferson School District No. 509J complies with Governmental Accounting Standards Board Statement 14 as amended, "The Financial Reporting Entity." The criteria for including organizations as component units within the District's reporting entity, include whether 1) the organization is legally separate (can sue and be sued in their name); 2) the District holds the corporate powers of the organization; 3) the District appoints a voting majority of the organization's board; 4) the District can impose its will on the organization; 5) the organization has the potential to impose a financial benefit/burden on the District; and 6) there is fiscal dependency by the organization on the District. Based on the aforementioned criteria, Jefferson School District No. 509J has no component units.

#### Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District. Eliminations have been made to minimize the double counting of internal activities. Governmental activities include programs supported primarily by taxes, state school support payments, grants and other intergovernmental revenues. The District has no business type activities that rely, to a significant extent, on fees and charges for support. The District also reports no fiduciary activities.

The statement of activities demonstrates the degree to which direct expenses of a given function are offset by program revenues. Direct expenses are those that are specifically associated with a program of function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### Basis of Presentation (Cont.)

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain school district functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds.

The fund financial statements provide reports on the financial condition and results of operations for governmental activities. Major individual governmental funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

<u>General Fund</u> – The General Fund is the District's primary operating fund and accounts for all revenues and expenditures, except those required to be accounted for in another fund. Expenditure categories include salaries, associated payroll costs, purchased services, supplies and materials, capital outlay, and other general expenses.

Special Revenue Fund – The Special Revenue Funds account for the uses of specific revenue sources that are legally restricted to specified purposes. Some examples of special revenue funds include restricted state or federal grants-in-aid and food service sales

<u>Debt Service Fund</u> – Oregon Budget Law requires the establishment of a Debt Service Fund when a bond levy is passed. These funds account for the accumulation of resources for, and the payment of, general long-term debt, principal, and interest.

<u>Capital Projects Fund</u> – The Capital Maintenance Funds accounts for activities related to the acquisition, construction, repairing and equipping of facilities

#### Measurement Focus/Basis of Accounting:

Measurement focus refers to what is being measured; the basis of accounting refers to when transactions are recognized in the financial records and reported on the financial statements. The basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied. Government-wide statements are prepared using the economic resources measurement focus and the accrual basis of accounting. The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net position and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized when the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or sixty days after year-end. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt which are reported when due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### Measurement Focus/Basis of Accounting (Cont.):

The revenues susceptible to accrual are property taxes, charges for services, interest income, and intergovernmental revenues. All other governmental fund revenues are recognized when received, as they are deemed immaterial. Deferred revenues arise when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when the revenue recognition is met or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

#### **Budgeting**

The District budgets all funds as required by state law. The District budgets for all funds on a modified accrual basis. The resolution authorizing appropriations for each fund sets the level by which expenditures cannot legally exceed appropriations. Total expenditures are controlled by annual appropriations at the following organizational levels: instruction, support services, community services, facilities acquisition and construction, and other expenditures. Appropriations lapse as of the fiscal year-end. A detailed budget document is required that contains more detailed information for the above-mentioned expenditure categories.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriations resolution. A supplemental budget may require hearings before the public, publications in newspapers, and approval by the District Board of Directors. Original and supplemental budgets may be modified by the use of appropriations transfers between the levels of control. Such transfers require approval by the District Board of Directors.

#### Cash and Investments

For purposes of the statement of cash flows, cash and cash equivalents include cash on hand, checking, savings, and money market accounts, and any short-term, highly liquid investments with initial maturity dates of three months or less.

The District has adopted an investment policy requiring compliance with Oregon statutes, which authorizes the District to invest in obligations of the United States, the agencies and instrumentalities of the United States and the State of Oregon, and numerous other investment instruments.

The District's investments may consist of time certificates of deposit, banker's acceptances, commercial paper, U.S. Government Agency securities, and the State of Oregon Treasurer's Local Government Investment Pool (LGIP). The District's investments are reported at fair value at year-end. Changes in the fair value of investments are recorded as investment earnings. The LGIP is stated at cost, which approximates fair value. The fair value of the LGIP is the same as the District's value in the pool shares.

The Oregon State Treasury administers the LGIP. It is an open-ended, non-load diversified portfolio offered to any agency, political subdivision, or public corporation of the State that by law is made the custodian of, or has control of, any fund. The LGIP is included in the Oregon Short-Term Fund (OSTF) which was established by the State Treasurer. In seeking to best serve local governments of Oregon, the Oregon legislature established the Oregon Short-Term Fund Board. The purpose of the Board is to advise the Oregon State Treasury on the management and investment options of the LGIP.

#### Receivables

Amounts due from individuals and organizations are recorded as receivables at year-end. These amounts include charges for services rendered, or for goods and material provided by the District. All receivables are expected to be collected. Accordingly, receivables are reported at the gross amount without an allowance for uncollectible accounts.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### Receivables (Cont.)

Receivables are also recognized for property taxes and intergovernmental grants. Property taxes receivable consist of uncollected taxes levied and payable at the end of the fiscal year. All taxes are considered collectible. Consequently, no allowance for uncollectible taxes has been established. In the governmental fund financial statements, property taxes not collected within sixty days of the end of the fiscal year are reported as a deferred inflow of resources.

Intergovernmental grant reimbursement and entitlement amounts for which all eligibility requirements imposed by the provider have been met, but which were not received by the fiscal year end, are reported as accounts receivable.

#### Prepaid Expenses

The District has elected to report the amount paid to the Oregon Public Employee Retirement System (PERS) to reduce the calculated unfunded pension liability obligation as a prepaid expense, as reported on the government-wide Statement of Net Position. The prepaid asset is to be amortized in amounts and over the estimated length of time the unfunded portion of the pension obligation is expected to be paid out to its current and former employees.

#### Inventory

Food & supplies inventories in the Food Service Fund are valued at cost determined by the FIFO method. Commodities inventory in the Food Service Fund is valued at estimated fair market value. Inventory is treated as being expended when used rather than when purchased. Inventories of non-food service supplies are not considered significant. The District records the cost of non-food service supplies as expenses and expenditures when purchased rather than when used.

#### Capital Assets

The District has established a formal system of accounting for its capital assets. Purchased or constructed capital assets are reported at cost, or estimated cost when original cost is not available. Donated capital assets are valued at their estimated fair market value on the date received. Maintenance and repairs of capital assets are not capitalized but rather are charged to expenditures in the governmental funds. The District does not possess any infrastructure. The capitalization threshold used by the District as recommended by the State of Oregon is \$5,000.

In the government-wide financial statements, all reported capital assets except for land and construction in progress are depreciated. Depreciation is computed using the straight-line method over the estimated useful lives as follows:

|                       | <b>Estimated</b>    |
|-----------------------|---------------------|
|                       | Years of            |
| Asset Class           | <b>Useful Lives</b> |
| Buildings             | 20-50               |
| Building Improvements | 20-50               |
| Land Improvements     | 15-25               |
| Vehicles              | 10                  |
| Equipment             | 5-10                |

In the governmental fund financial statements, capital assets are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets are not capitalized, and related depreciation is not reported in the fund financial statements.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### Compensated Absences and Accrued Liabilities

The liability for compensated absences reported in the government-wide statements consists of unpaid, accumulated annual vacation.

All payables and accrued liabilities are reported on government-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid on time and in full by current financial resources are reported as obligations of the funds.

#### Advances from Grantors

Amounts received for reimbursement-type grants in excess of District expenditures related to that grant are reported in the liability section of the government-wide statements as advances from grantors and are consequently not reported as revenues.

#### **Long-Term Obligations**

All bonds payable and capital leases payable are recognized in the government-wide financial statements as a liability of the District. Amounts of the long-term debt due within the following fiscal year are included in the current liabilities section of the Statement of Net Position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the governmental fund financial statements, proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources. Principal and interest payments on bonded debt and capital lease payments are recorded as a debt service in the expenditure section of the statement and schedules.

#### Deferred Inflows/Outflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has only one item that qualifies for reporting in this category, deferred pension contributions.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has only one type of item that qualifies for reporting in this category, deferred earnings on pension assets. In the governmental funds balance sheet, a different category of deferred inflow of resources, delinquent property tax revenue not available, is reported. Property taxes levied and considered receivable at the end of the fiscal year, but not collected within sixty days of the end of the fiscal year are reported in this category. These amounts are recognized as an inflow of resources (revenue) in the period that the amounts become available.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### **Equity Classifications**

Government-wide Statements

Equity is classified as net position, which represents the difference between assets, liabilities, and deferred accounts. Net position is displayed in three components:

- a. Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowing that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position All other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

#### Fund Financial Statements

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- <u>Nonspendable</u>: This classification includes amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted: This classification includes fund balance amounts that are constrained for specific purposes which are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation. The District has restricted funds for various projects that are to be used for educational purposes.
- <u>Committed</u>: This classification includes fund balance amounts that are constrained for specific purpose that are internally imposed by the government through resolution of the highest level of decision-making authority, the Board of Directors, and does not lapse at year-end.
- <u>Assigned</u>: This classification includes fund balance amounts that are intended to be used for specific purposes that are neither restricted nor committed. This intent can be expressed by the Board of Directors or through the Board of Directors delegating this responsibility to selected staff members or through the budgetary process. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.
- <u>Unassigned</u>: This classification includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories, and negative fund balances of other governmental funds.

The District's policy is to use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of the constrained fund balances.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.):**

#### **Property Taxes**

Real and personal property taxes are attached as an enforceable lien on property as of January 1. All taxes are levied as of the lien date and are payable in three installments on November 15, February 15, and May 15. Taxes unpaid and outstanding on May 16 are considered delinquent.

Uncollected property taxes are recorded on the statement of net position. Uncollected taxes are deemed to be substantially collectible or recoverable through liens; therefore, no allowance for uncollectable taxes has been established. All property tax receivables are due from property owners within the District.

#### **Inter-Fund Transactions**

In the fund financial statements, quasi-external transactions are accounted for as revenues or expenditures, while reimbursements to a fund for expenditures initially made from it that are properly applicable to another fund, are recorded as expenditures in the reimbursing fund and as reductions of expenditures in the fund that is reimbursed. All other inter-fund transactions are reported as transfers. Nonrecurring or non-routine permanent transfers of equity are reported as residual equity transfers. All other inter-fund transfers are reported as operating transfers.

#### Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities as well as disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

#### **Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Oregon Public Employees Retirement Fund (OPERF) and the Oregon Public Service Retirement Plan (OPSRP) and additions to/deductions from OPERF's and OPSRP's fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### **CASH AND INVESTMENTS:**

For a discussion of deposit and investment policies and other related information, see the Cash and Investments note under the Summary of Significant Accounting Policies.

The District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by state statutes. These restrictions are summarized in the Cash and Investments note under the Summary of Significant Accounting Policies.

Investments, including amounts held in pool cash and investments, are stated at fair value. In accordance with Governmental Accounting Standards Board (GASB) Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, investments with a remaining maturity of more than one year at the time of purchase are stated at fair value. Fair value is determined at the quoted market prices, if available; otherwise, the fair value is estimated based on the amount at which the investment could be exchanged in a current transaction between willing parties, other than a forced liquidation sale. Investments in the State of Oregon Local Government Investment Pool (LGIP) are stated at fair value.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **CASH AND INVESTMENTS (Cont.):**

<u>Deposits</u> - All cash is deposited in compliance with Oregon statutes. The insurance and collateral requirements for deposits are established by banking regulations and Oregon law. FDIC insurance of \$250,000 applies to the deposits in each depository. Where balances continually exceed \$250,000, ORS 295 requires the depositor to verify that deposit accounts are only maintained at financial institutions on the list of qualified depositories found on the state treasurer's website. Qualifying depository banks must pledge securities with a particular value based on the bank's level of capitalization. The balances in excess of the FDIC insurance are considered exposed to custodial credit risk.

Custodial Credit Risk for Deposits - Custodial credit risk for deposits exists when, in the event of a depository failure, the District's deposits may not be returned to it. The District does not have a deposit policy for custodial credit risk.

As of June 30, 2024, the reported amount of the District's deposits was \$12,399,251.79, the bank balance was \$11,734,336.44. Of the bank balance, the entire amount was covered by federal depository insurance or covered by the collateral held in a multiple financial institution's collateral pool administered by the Oregon State Treasurer. Petty cash held by the district was \$1060.

<u>Investments</u> - Oregon statutes authorize the District to invest in obligations of the U.S. Treasury and U.S. agencies, banker's acceptances, repurchase agreements, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, and the Local Governmental Investment Pool. The District has no credit risk policy or investment policy that would further limit its investment choices

*Credit Risk* - Credit risk exists when there is a possibility the issuer or other counterparty to an investment may be unable to fulfill its obligations. As of June 30, 2024, the District's investment in the Oregon State Treasurer's Local Government Investment Pool (LGIP) was unrated.

As of June 30, 2024, the District's deposits in financial institutions were as follows:

| Type of Investment                        | <u>I</u> | Fair Value | Credit Rating |  |
|---|----------|------------|---------------|--|
| Oregon State Treasurer's Local Government |          |            |               |  |
| Investment Pool (LGIP)                    | \$       | 30,936,262 | N/A           |  |
| Total Investments                         | \$       | 30,936,262 |               |  |

Investments in the LGIP and federal agency notes do not require disclosure of credit rating quality.

Concentration of Credit Risk - An increased risk of loss occurs as more investments are acquired from one issuer. This results in a concentration of credit risk. The District places no limit on the amount that may be invested in any one issuer. More than 5 percent of the District's investments are in the Oregon State Treasurer's Local Government Investment Pool (LGIP). This investment is 100 percent of the District's total investment.

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **CAPITAL ASSETS:**

The following is a summary of capital asset activity for the fiscal year ended June 30, 2024:

#### Depreciable Assets Schedule For the Year 2024

| FOR the Year 2024  |                       |              |             |                    |  |
|--|-----------------------|--------------|-------------|--------------------|--|
| Governmental Activities  | Beginning<br>Balances | Additions    | Deletions   | Ending<br>Balances |  |
| Assets not being depreciated:  |                       |              |             |                    |  |
| Land   | \$ 2,604,701          | \$ -         | \$ -        | \$ 2,604,701       |  |
| Construction in Progress   | 12,104,691            | 16,265,023   | 3,955,042   | 24,414,672         |  |
| Total assets not being depreciated                                     | 14,709,392            | 16,265,023   | 3,955,042   | 27,019,373         |  |
| Assets being depreciated:  |                       |              |             |                    |  |
| Land Improvement   | 1,012,985             | -            | -           | 1,012,985          |  |

| Total Depreciation Expense   | \$ 2,562,183          |              |             |                    |  |

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### RIGHT TO USE ASSETS AND RELATED LEASES PAYABLE:

For the year ended June 30, 2024, the financial statements include the adoption of GASB Statement No. 87, Leases. The primary objective of this statement is to enhance the relevance and consistency of information about governments' leasing activities. This statement establishes a single model for lease accounting based on the principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. For additional information, refer to the disclosures below.

As of June 30, 2024, Jefferson School District had nine active leases. The leases have payments that range from \$13,989 to \$13,989 and interest rates that range from 3.4450% to 3.4450%. As of June 30, 2024, the total combined value of the lease liability is \$58,597, the total combined value of the short-term lease liability is \$0. The combined value of the right to use asset, as of June 30, 2024, of \$196,796 with accumulated amortization of \$83,864 is included within the Lease Class activities table found below. The leases had \$0 of Variable Payments and \$0 of Other Payments, not included in the Lease Liability, within the Fiscal Year.

#### Amount of Lease Assets by Major Classes of Underlying Asset

|              | As of Fiscal Year-end |              |              |  |
|--------------|-----------------------|--------------|--------------|--|
|              |                       |              | Asset Value, |  |
|              | Lease Asset           | Accumulated  | net of       |  |
| Asset Class  | Value                 | Amortization | Accumulated  |  |
| Other        | \$ 196,796            | \$ 83,864    | \$ 112,932   |  |
| Total Leases | \$ 196,796            | \$ 83,864    | \$ 112,932   |  |

#### Principal and Interest Requirements to Maturity

| Fiscal Year                               | Governmental Activities |        |                      |       |                   |        |
|---|-------------------------|--------|----------------------|-------|-------------------|--------|
|   | Principal Payments      |        | Interest<br>Payments |       | Total<br>Payments |        |
|   |                         |        |                      |       |                   |        |
| 2026                                      |                         | 12,848 |                      | 1,140 |                   | 13,989 |
| 2027                                      |                         | 8,029  |                      | 838   |                   | 8,867  |
| 2028                                      |                         | 6,714  |                      | 623   |                   | 7,338  |
| 2029 - 2033                               |                         | 15,240 |                      | 1,709 |                   | 16,949 |
| 2034 - 2035                               |                         | 3,286  |                      | 89    |                   | 3,375  |

#### Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **LONG-TERM LIABILITIES OTHER THAN OPEB AND PENSIONS:**

On June 30, 2022, the District borrowed \$1,549,955 from Ameresco/US Bank. Payments are semi-annual, in December and June, and vary from \$90,265 to \$135,627, through December 17, 2037. Proceeds were used for various capital improvements to District buildings.

On May 23, 2013, the District issued \$24,835,000 in general obligation and refunding bonds (General Obligation and Refunding Bonds, Series 2013). Of this issue, \$15,960,000 was issued to finance the improvements to school facilities in Madras and Metolius. The remaining funds were used to refund the March 15, 2002, general obligation bonds.

On July 23, 2013, the District issued the remaining \$10,740,000 in general obligations bonds approved by voters in May 2012. The proceeds were used to fund half of the cost of constructing a new Warm Springs K-8 school, in a joint project with the Confederated Tribes of Warm Springs.

On March 10, 2021, the District issued a federally taxable general obligation refunding bonds of \$24,680,000 to partially refund outstanding bonds of the Series 2013 General Obligation with a \$24,680,000 to partially refund outstanding bonds of the Series 2013 General Obligation with a true interest cost of 2.09% and an average coupon rate of 1.97%. The net proceeds after payment of underwriting fees and other issuance costs were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments of the May 23, 2013, and July 23, 2013, general obligation bonds. The refunding reduced total debt service by \$2,176,396 and obtained an economic gain defined as the difference between the present values of the debt service payments on the old and new debt of 8.82%

On February 16, 2022, the District issued \$24,000,000 in general obligation bonds approved by voters in November 2021 to fund various capital improvements in the District. The bonds were issued at a premium of \$2,671,500 and are payable over 20 years including interest at 3% and 4% through June 15, 2042.

On October 31, 2002, the District issued Oregon School Boards Association Limited Tax Pension Obligation Bonds, Series 2002 to finance the District's estimated PERS unfunded liability. The original balance was \$12,506,637 and has a variable interest rate on the bonds varying from 2.06% to 6.01%. Interest payments are due on the 30th of June and December of each year with a principal payment due with the June payment.

On July 22, 2021, the District participated with other Oregon school districts to issue Full Faith and Credit Pension Obligation Bonds, Series 2021A to finance the District's estimated PERS unfunded liability. The District issued \$31,905,000 in debt as part of the pooled issuance. Interest payments are due on the 30th of June and December of each year with a principal payment due with the June payment.

The District has no unused lines of credit.

The District has no assets that are specifically pledged as collateral for any of the debt.

For further details on debt service, see the 'Schedule of Long-Term Debt Transactions' in the Other Information section of this report.

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### SUBSCRIPTION-BASED INFORMATION TECHNOLOGY AGREEMENTS AND RELATED PAYABLES:

For the year ended June 30, 2024, the financial statements include the adoption of GASB Statement No. 96, Subscription-Based Information Technology Arrangements (SBITAs). The primary objective of this statement is to enhance the relevance and consistency of information about governments' subscription activities. This statement establishes a single model for subscription accounting based on the principle that subscriptions are financings of the right to use an underlying asset. Under this Statement, an organization is required to recognize subscription liability and an intangible right-to-use subscription asset. For additional information, refer to the disclosures below.

As of June 30, 2024, Jefferson School District had one active subscription. The subscriptions have payments that range from \$26,516 to \$67.235 and interest rates that range from 2.2300% to 2.2300%. As of June 30, 2024, the total combined value of the subscription liability is \$237,527, and the total combined value of the short-term subscription liability is \$60,551. The combined value of the right to use asset, as of June 30,2024 is \$307,764 with accumulated amortization of \$61,552 is included within the Subscription Class activities table found below. The subscriptions had \$0 of Variable Payments and \$0 of Other Payments, not included in the Subscription Liability, within the Fiscal Year.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN:**

Jefferson School District No. 509J offers various retirement plans to qualified employees as described below.

#### Name of Pension Plan

Jefferson School District No. 509J participates with other state agencies in the Oregon Public Employees Retirement System (OPERS) which is a cost-sharing multiple-employer defined benefit pension plan.

#### Description of Benefit Terms

#### Plan Benefits

OPERS is administered in accordance with Oregon Revised Statutes (ORS) Chapter 238, Chapter 238A, and Internal Revenue Code Section 401(a). The Oregon Legislature has delegated authority to the Public Employees Retirement Board (PERS Board) to administer and manage the System.

1. Tier One/Tier Two Retirement Benefit (Chapter 238). OPERS is a defined benefit pension plan that provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to members and their beneficiaries. Benefits are established by state statute. This defined benefit pension plan portion of OPERS is closed to new members hired on or after August 29, 2003.

#### Pension Benefits

The OPERS retirement allowance is payable monthly for life. Members may select from 13 retirement benefit options. These options include survivorship benefits and lump-sum refunds. The basic benefit is based on years of service and final average salary. A percentage (2.0 percent for police and fire employees, 1.67 percent for general service employees) is multiplied by the number of years of service and the final average salary. Benefits may also be calculated under either a formula plus annuity (for members who were contributing before August 21, 1981) or a money match computation if a greater benefit results.

A member is considered vested and will be eligible at minimum retirement age for a service retirement allowance if he or she has had a contribution in each of five calendar years, or has reached at least 50 years of age before ceasing employment with a participating employer (age 45 for police and fire members). General service employees may retire after reaching age 55. Police and fire members are eligible after reaching age 50. Tier One general service employee benefits are reduced if retirement occurs prior to age 58 with fewer than 30 years of service. Police and fire member benefits are reduced if retirement occurs prior to age 55 with fewer than 25 years of service. Tier Two members are eligible for full benefits at age 60. The ORS Chapter 238 Defined Benefit Pension Plan is closed to new members hired on or after August 29, 2003.

During the 2019 Legislative session, Senate Bill 1049 was approved and signed into law by the governor. Under Senate Bill 1049, several components of the bill have significantly impacted the System, and the bill continues to be implemented.

- 1. Employer Programs Project (effective July 1, 2019): established the Employer Incentive Fund (EIF) Program, which allows eligible employers to receive matching funds if they apply and make a qualifying deposit into a side account
- 2. Salary Limit Project: A new limitation on subject final average salary used for PERS benefit calculations and contributions is used to determine member IAP contributions, employer contributions to fund the pension program, and the Final Average Salary (FAS) used in calculating retirement benefits under formula methods was added, (\$225,533 as of January 1, 2023). This amount is indexed annually to the Consumer Price Index (CPI).

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### PENSION PLAN (Cont.):

- 3. Work After Retirement Project (effective January 1, 2020): The 1,039-hour Work After Retirement limit for all PERS retirees is removed for calendar years 2020 through 2024. If a member retires on or after normal retirement age, starting in 2020, they can work for a PERS-covered employer and continue receiving their pension benefit (without accruing any new benefits) with no hour limitations. If a member retires earlier than normal retirement age, starting in 2020, they can work for a PERS-covered employer and continue receiving their pension benefit (without accruing any new benefits) with no hour limitations if the date of their employment is more than six months after their retirement date.
- 4. Member Redirect Project (effective July 1, 2020): For all currently employed Tier One/Tier Two and OPSRP members earning \$3,570/month in House Bill 2906 as of June 2023), a portion of their 6 percent monthly IAP contributions will be redirected to an "Employee Pension Stability Account." The Employee Pension Stability Account will be used to pay for part of the member's future pension benefit.
  - Tier One/Tier Two members: 2.5 percent of each member's IAP contribution amount, currently contributed to the IAP, (whether paid by the member or employer) will start going into an Employee Pension Stability Account (EPSA). The remainder will continue to go to the member's existing IAP account.
  - Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full, 6 percent contribution to the IAP.
- 5. Member Choice Project (effective January 1, 2021): IAP accounts are currently invested in Target-Date Funds based on a member's birth year. Beginning in 2021, members may choose to invest their IAP balance in a fund that is more reflective of their risk tolerance than the default based on their age.
- 6. Additionally, the Legislature directed the PERS Board to enact a one-time re-amortization of Tier 1/Tier 2 UAL over 22 years. This means that, effective with the December 31, 2019 rate-setting valuation, the entire unamortized Tier 1/Tier 2 UAL for each rate pool and independent employer will be re-amortized over a 22 year period as a level percentage of projected future payroll.

#### Death Benefits

Upon the death of a non-retired member, the beneficiary receives a lump-sum refund of the member's account balance (accumulated contributions and interest). In addition, the beneficiary will receive a lump-sum payment from employer funds equal to the account balance, provided one or more of the following conditions are met:

- the member was employed by an OPERS employer at the time of death,
- the member died within 120 days after termination of OPERS-covered employment,
- the member died as a result of injury sustained while employed in an OPERS-covered job, or
- the member was on an official leave of absence from an OPERS-covered job at the time of death.

#### Disability Benefits

A member with 10 or more years of creditable service who becomes disabled from other than duty-connected causes may receive a non-duty disability benefit. A disability resulting from a job-incurred injury or illness qualifies a member (including OPERS judge members) for disability benefits regardless of the length of OPERS-covered service. Upon qualifying for either a non-duty or duty disability, service time is computed to age 58 (55 for police and fire members) when determining the monthly benefit.

#### Benefit Changes After Retirement

Members may choose to continue participation in a variable equities investment account after retiring and may experience annual benefit fluctuations due to changes in the market value of equity investments.

Under ORS 238.360, monthly benefits are adjusted annually through cost-of-living adjustments (COLA). The COLA is capped at 2.0

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

**2. OPSRP Defined Benefit Pension Program (OPSRP DB).** The Pension Program (ORS Chapter 238A) provides benefits to members hired on or after August 29, 2003.

#### Pension Benefits

This portion of OPSRP provides a life pension funded by employer contributions. Benefits are calculated with the following formula for members who attain normal retirement age:

Police and fire: 1.8 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for police and fire members is age 60 or age 53 with 25 years of retirement credit. To be classified as a police and fire member, the individual must have been employed continuously as a police and fire member for at least five years immediately preceding retirement.

General service: 1.5 percent is multiplied by the number of years of service and the final average salary. Normal retirement age for general service members is age 65, or age 58 with 30 years of retirement credit.

A member of the OPSRP Pension Program becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, and, if the pension program is terminated, the date on which termination becomes effective.

During the 2019 Legislative session, Senate Bill 1049 was approved and signed into law by the governor. Under Senate Bill 1049, several components of the bill have significantly impacted the System, and the bill continues to be implemented.

- 1. Employer Programs Project (effective July 1, 2019): established the Employer Incentive Fund (EIF) Program, which allows eligible employers to receive matching funds if they apply and make a qualifying deposit into a side account.
- 2. Salary Limit Project: A new limitation on subject final average salary used for PERS benefit calculations and contributions is used to determine member IAP contributions, employer contributions to fund the pension program, and the Final Average Salary (FAS) used in calculating retirement benefits under formula methods was added (\$225,533 as of January 1, 2023). This amount will be indexed annually to the Consumer Price Index (CPI).
- 3. Work After Retirement Project (effective January 1, 2020): The 1,039-hour Work After Retirement limit for all PERS retirees is removed for calendar years 2020 through 2024. If a member retires on or after normal retirement age, starting in 2020, they can work for a PERS-covered employer and continue receiving their pension benefit (without accruing any new benefits) with no hour limitations. If a member retires earlier than normal retirement age, starting in 2020, they can work for a PERS-covered employer and continue receiving their pension benefit (without accruing any new benefits) with no hour limitations if the date of their employment is more than six months after their retirement date.
- 4. Member Redirect Project (effective July 1, 2020): For all currently employed Tier One/Tier Two and OPSRP members earning \$3,570/month in House Bill 2906 as of June 2023), a portion of their 6 percent monthly IAP contributions will be redirected to an "Employee Pension Stability Account." The Employee Pension Stability Account will be used to pay for part of the member's future pension benefit.
  - OPSRP members: 0.75 percent of each member's contribution, currently contributed to the IAP, (whether paid by the member or employer) will start going into their EPSA. The remaining 5.25 percent of the members contribution will continue to go to the member's existing IAP account.
  - Members may voluntarily choose to make additional after-tax contributions into their IAP account to make a full, 6 percent contribution to the IAP.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### PENSION PLAN (Cont.):

5. Member Choice Project (effective January 1, 2021): IAP accounts are currently invested in Target-Date Funds based on a member's birth year. Beginning in 2021, members may choose to invest their IAP balance in a fund that is more reflective of their risk tolerance than the default based on their age.

#### Death Benefits

Upon the death of a non-retired member, the spouse or other person who is constitutionally required to be treated in the same manner as the spouse, receives for life 50 percent of the pension that would otherwise have been paid to the deceased member.

#### Disability Benefits

A member who has accrued 10 or more years of retirement credits before the member becomes disabled or a member who becomes disabled due to job-related injury shall receive a disability benefit of 45 percent of the member's salary determined as of the last full month of employment before the disability occurred.

#### 3. Individual Account Program (IAP).

#### Benefit Terms

The IAP is an individual account-based program under the PERS tax-qualified governmental plan as defined under ORS 238A.400.

An IAP member becomes vested on the date the employee account is established or on the date the rollover account was established. If the employer makes optional employer contributions for a member, the member becomes vested on the earliest of the following dates: the date the member completes 600 hours of service in each of five calendar years, the date the member reaches normal retirement age, the date the IAP is terminated, the date the active member becomes disabled, or the date the active member dies.

Upon retirement, a member of the Individual Account Program (IAP) may receive the amounts in his or her employee account, rollover account, and vested employer account as a lump-sum payment or in equal installments over a 5-, 10-, 15-, 20-year period or an anticipated life span option.

#### Death Benefits

Upon the death of a non-retired member, the beneficiary receives in a lump sum the member's account balance, rollover account balance, and vested employer optional contribution account balance. If a retired member dies before the installment payments are completed, the beneficiary may receive the remaining installment payments or choose a lump-sum payment.

#### Recordkeeping

OPERS contracts with VOYA Financial to maintain IAP participant records.

#### 4. Postemployment Healthcare Benefits.

ORS 238.420 established the Retirement Health Insurance Account (RHIA) and authorizes a payment of up to \$60 from RHIA toward the monthly cost of health insurance for eligible PERS members. RHIA is a cost-sharing, multiple-employer OPEB plan for 897 participating employers. The plan was closed to new entrants hired on or after August 29, 2003.

To be eligible to receive this monthly payment toward the premium costs, the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in a PERS-sponsored health plan.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

#### Description of Funding and Contributions for PERS Benefit Plans

OPERS' funding policy provides for periodic member and employer contributions at rates established by the Public Employees Retirement Board, subject to limits set in statute. Contributions for employers are recognized on the accrual basis of accounting. Employer contributions to OPERS are calculated based on creditable compensation for active members reported by employers. The rates established for member and employer contributions were approved based on the recommendations of the System's third-party actuary. The contribution rate for every employer has at least two major components; Normal Cost Rate and Unfunded Actuarial Liability (UAL) Rate.

The District's employer contributions for the year ended June 30, 2024 were \$8,316,909 before Side Account Amortization, and excluding amounts to fund employer specific liabilities.

Amortization of the Side Account resulted in a PERS savings to the District of \$5,481,191 for FY 2023-2024 from the required PERS contribution rate of \$8,316,909, netting to a net contribution of \$2,835,718.

The current year contribution rates in effect for PERS have been reduced while the District receives amortization of the PERS Side Account, funded with PERS retirement bonds (described in Long Term Debt). Because of this side account amortization, the adjusted PERS contribution rates in effect for the period July 1, 2023 to June 30, 2025 are a net of: Tier1/Tier2 – 7.36% and OPSRP General Service – 4.52%.

#### Member Contributions

Beginning January 1, 2004, all member contributions, except for contributions by judge members, were placed in the OPSRP Individual Account Program (IAP). Prior to that date, all member contributions were credited to the Defined Benefit Pension Plan. Member contributions are set by statute at 6.0 salary and are remitted by participating employers. The contributions are either deducted from member salaries or paid by the employers on the members' behalf.

During FY 2023-2024, approximately \$1,559,587 in employee IAP contributions were paid or picked up by the District.

#### **Employer Contributions**

PERS funding policy provides for monthly employer contributions at actuarially determined rates. These contributions, expressed as a percentage of covered payroll, are intended to accumulate sufficient assets to pay benefits when due. This funding policy applies to the PERS Defined Benefit Plan and OPEB (Other Post Employment Benefit) Plans. Employer contribution rates during the period were based on the December 31, 2019, actuarial valuation, which became effective July 1, 2021. The state of Oregon and certain schools, community colleges, and political subdivisions have made supplemental unfunded actuarial liability payments, and their rates have been reduced. Effective January 1, 2020, Senate Bill 1049 required employers to pay contributions on re-employed PERS retirees' salary as if they were an active member, excluding IAP (6%) contributions. Re-employed retirees do not accrue additional benefits while they work after retirement.

For **Oregon PERS Defined Benefit Plans**, Effective July 1, 2021, the contribution rate for State Agencies was 20.36%, the State and Local Government Rate Pool 28.08%, Schools 27.54%, Cities 28.64% and Judiciary 24.56% of PERScovered salaries.

For **Oregon PERS OPSRP Pension Program**, all OPERS employers with OPSRP Pension Program members are actuarially pooled and share the same contribution rate. The employer rates effective July 1, 2021 through June 20, 2023, are 10.33% for General Service employees, and 14.69% for Police and Fire employees of covered salaries. Each of these rates includes a component related to disability benefits for General Service and Police and Fire members.

Members of OPSRP are required to contribute 6.0% of their salary covered under the plan which is invested in the IAP. For employees in Tier One / Tier two, the Employer makes this contribution on behalf of its members.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

For **Oregon PERS Postemployment Benefit Plans**, for the fiscal year ended June 30, 2023, PERS employers contributed 0.05% of PERS-covered salaries for Tier One and Tier Two members to fund the normal cost portion of RHIA benefits. No UAL rate was assigned for the RHIA program as it was funded at over 100% as of December 31, 2019. These rates were based on the December 31, 2019, actuarial valuation.

Employer contributions are advance-funded on an actuarially determined basis. There is no inflation assumption for RHIA postemployment benefits because the payment amount is set by statute and is not adjusted for increases in healthcare costs.

For **OPSRP Pension Program**, all OPERS employers with OPSRP Pension Program members are actuarially pooled and share the same contribution rate. Each of these rates includes a component related to disability benefits for General Service and Police and Fire members.

#### Pension Plan CAFR/ ACFR

Oregon PERS produces an independently audited ACFR which can be found at: www.oregon.gov/pers/Documents/Financials/ACFR/2023-ACFR.pdf

#### **Actuarial Valuations**

The employer contribution rates effective July 1, 2023, through June 30, 2025, were set using the Entry Age Normal actuarial cost method.

For the Tier One/Tier Two component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (1) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (2) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over 20 years by ongoing Board policy. However, upon passage of Senate Bill 1049, the Legislature directed the PERS Board to enact a one-time re-amortization of Tier 1/Tier 2 UAL over 22 years. This means that, effective with the December 31, 2019 rate-setting valuation, the entire unamortized Tier 1/Tier 2 UAL for each rate pool and independent employer will be re-amortized over a 22 year period as a level percentage of projected future payroll.

For the OPSRP Pension Program component of the OPERS Defined Benefit Plan, this method produced an employer contribution rate consisting of (a) an amount for normal cost (the estimated amount necessary to finance benefits earned by the employees during the current service year), (b) an amount for the amortization of unfunded actuarial accrued liabilities, which are being amortized over a fixed period with new unfunded actuarial accrued liabilities being amortized over the same period of years.

For the Postemployment Healthcare component, the RHIA plan fiduciary net position balance represents the program's accumulation of employer contributions and investment earnings less premium subsidies and administrative expenses No UAL rate was assigned for the RHIA program as it was funded over 100% as of December 31, 2019. Typically, PERS employers contribute an actuarially determined percent of all PERS-covered salaries to amortize the unfunded actuarial accrued liability over a fixed period with new unfunded actuarial accrued liabilities being amortized over 10 years.

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown above are based on the 2020 Experience Study which reviewed experience for the four-year period ending on July 20, 2021.

#### Discount Rate

The discount rate used to measure the total pension liability was 6.90 percent for the Defined Benefit Pension Plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the Defined Benefit Pension Plan was applied to all periods of projected benefit payments to determine the total pension liability.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

Depletion Date Projection

GASB 67 generally requires that a blended discount rate be used to measure the Total Pension Liability (the Actuarial Accrued Liability calculated using the Individual Entry Age Normal Cost Method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's Fiduciary Net Position is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the Fiduciary Net Position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 67 will often require that the actuary perform complex projections of future benefit payments and pension plan investments. GASB 67 (paragraph 43) does allow for alternative evaluations of projected solvency if such an evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for OPERS:

- OPERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100% funded position by the end of the amortization period if future experience follows assumption.
- GASB 67 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is our independent actuary's opinion that the detailed depletion date projections outlined in GASB 67 would clearly indicate that the Fiduciary Net Position is always projected to be sufficient to cover benefit payments and administrative expenses.

OIC Target and Actual Investment Allocation as of June 30, 2023

Opportunity Portfolio is an investment strategy. Up to 5% of total Fund assets may be invested in it.

<sup>&</sup>lt;sup>2</sup>The target allocation of Debt Securities is increased by 5% and Public Equity is reduced by 2.5% from FY2022, and the allocation to Risk Parity is eliminated.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### PENSION PLAN (Cont.):

Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in January 2023 the Oregon PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. The table below shows Milliman's assumptions for each of the asset classes in which the plan was invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown below.

| Long Term Expected Rate of Return <sup>1</sup> Asset Class | Target Allocation | Annual<br>Arithmetic<br>Return <sup>2</sup> | 20-Year<br>Annualized<br>Geometric Mean | Annual<br>Standard<br>Deviation |
|--|-------------------|---|---|---------------------------------|
| Global Equity  | 27.50%            | 8.57%                                       | 7.07%                                   | 17.99%                          |
| Private Equity   | 25.50%            | 12.89%                                      | 8.83%                                   | 30.00%                          |
| Core Fixed Income  | 25.00%            | 4.59%                                       | 4.50%                                   | 4.22%                           |
| Real Estate  | 12.25%            | 6.90%                                       | 5.83%                                   | 15.13%                          |
| Master Limited Partnerships                                | 0.75%             | 9.41%                                       | 6.02%                                   | 27.04%                          |
| Infrastructure   | 1.50%             | 7.88%                                       | 6.51%                                   | 17.11%                          |

<sup>&</sup>lt;sup>1</sup>Based on the Oregon Investment Council's (OIC) Statement of Investment Objectives and Policy Framework for the Oregon Public Employees Retirement Fund, including revisions adopted at the OIC meeting on January 25, 2023.

#### Sensitivity Analysis

The following presents the employer's proportionate share of the net pension liability calculated using the discount rate of 6.90 percent, as well as what the employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate:

|   | 19 | 6 Decrease | Di | scount Rate | 1  | % Increase |
|---|----|------------|----|-------------|----|------------|
|   |    | 5.90%      |    | 6.90%       |    | 7.90%      |
| Employer's proportionate share of the net |    |            |    |             |    |            |
| pension liability                         | \$ | 11,221,623 | \$ | 6,793,524   | \$ | 3,087,675  |

#### **Changes Since Last Valuation**

A summary of key changes implemented after the December 31, 2021, valuation, which was used in the 2023 PERS ACFR. The changes are described briefly below. Additional detail and a comprehensive list of changes in methods and assumptions can be found in the 2020 Experience Study for the System, which was published on July 20, 2021, which can be found at: 2020-Experience-Study.pdf (oregon.gov)

<sup>&</sup>lt;sup>2</sup>The arithmetic mean is a component that goes into calculating the geometric mean. Expected rates of return are presented using the geometric mean, which the Board uses in setting the discount rate.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

#### Changes in Actuarial Methods and Allocation Procedures

An adjustment was added to the side account amortization calculations and Pre-SLGRP liability and surplus calculations to reflect the delay between when a rate is calculated and when it takes effect.

The timing of the amortization period for Pre-SLGRP liabilities and surpluses for SLGRP employers was revised to align the biennial rate-setting cycle.

#### **Changes in Assumptions**

The merit/longevity component assumption of individual member salary increases were updated for all groups, including adding a select assumption of an additional 2% for all members for two years.

The mortality improvement projection scale applied to all groups is based on60-year unisex average mortality improvements by age. The assumption was updated to reflect the most recent publicly available data at the time of the latest experience study.

Termination, disability and retirement rates were updated for some groups to more closely match observed and anticipated future experience.

Assumptions for unused sick leave and vacation pay were updated.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

#### Changes Subsequent to the Measurement Date

There were no changes subsequent to the measurement date, that we are aware of.

#### Deferred Items

Deferred items are calculated at the system-wide level and are allocated to employers based on their proportionate share. For the measurement period ending June 30, 2023, employers will report the following deferred items:

• A difference between expected and actual experience, which is being amortized over the remaining service lives of all plan participants, including retirees. One year of this amortization is included in the employer's total pension expense for the measurement period.

#### **Employer Contributions**

OPERS includes accrued contributions when due pursuant to legal requirements, as of June 30 in its Statement of Changes in Fiduciary Net Position.

Beginning with fiscal year 2016, OPERS will be able to report cash contributions and UAL side account amortization by employer and will publish this information on the OPERS Website. Prior to fiscal year 2016, contributions to the OPSRP Defined Benefit plan were not accounted for by employer, as all employers were pooled for actuarial purposes.

#### Elements of Changes in Net Position

This information can be found in the Schedule of Changes in Net Pension Liability found on page 96, of the June 30, 2023 Oregon PERS ACFR. www.oregon.gov/pers/Documents/Financials/ACFR/2023-ACFR.pdf

Pension Liabilities/(Assets), Pension Expense, and Deferred Outflows and Inflows of Resources Related to Pensions

At June 30, 2024, the employer reported a liability of \$6,793,524 for its proportionate share of the net pension liability. The net pension liability/(asset) was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on a projection of the employer's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **PENSION PLAN (Cont.):**

At June 30, 2023, the employer's proportion was 0.03626949%.

For the year ended June 30, 2024, the employer recognized pension expense of \$2,068,663. As of June 30, 2023, the employer reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

|   | O        | Deferred<br>outflows of | In   | Deferred of the officers of |
|---|----------|-------------------------|------|-----------------------------|
|   | <u>l</u> | Resources               | R    | esources                    |
| Differences between expected and actual experience      | \$       | 332,224                 | \$   | 26,937                      |
| Changes of assumptions                                  |          | 603,497                 |      | 4,500                       |
| Net difference between projected and actual earnings on |          |                         |      |                             |
| investments   |          | 122,107                 |      | -                           |
| Changes in proportionate share                          |          | -                       | 1:   | 5,546,317                   |
| Differences between employer contributions and          |          |                         |      |                             |
| employer's proportionate share of system contributions  |          | 19,532,709              |      | 22,442                      |
| (prior to post-measurement date contributions)          | \$       | 20,590,537              | \$1: | 5,600,196                   |
| Post-measurement date contributions                     |          | 8,316,909               |      | N/A                         |
| Total Deferred Outflow/(Inflow) of Resources            | \$       | 28,907,446              | \$1: | 5,600,196                   |
| Net Deferred Outflow/(Inflow) of Resources              |          |                         |      |                             |
| prior to post-measurement date contributions            |          |                         |      | 4,990,341                   |

Contributions of \$8,316,909 for PERS defined benefits, were made subsequent to the measurement date, but prior to the end of the District's reporting period. These contributions, which are reported as deferred outflows of resources related to pensions, will be included as a reduction of the net pension liability in next fiscal year.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense/(income) as follows:

| Employer subsequent | Deferred Outflow/(Inflow) of Resources (prior |  |  |  |
|---------------------|---|--|--|--|
| fiscal years        | to post-measurement date contributions)       |  |  |  |
| 1st Fiscal Year     | \$ 1,260,616                                  |  |  |  |
| 2nd Fiscal Year     | 1,312,866                                     |  |  |  |
| 3rd Fiscal Year     | 2,382,457                                     |  |  |  |
| 4th Fiscal Year     | 499,797                                       |  |  |  |
| 5th Fiscal Year     | (465,395)                                     |  |  |  |
| Total               | \$ 4,990,341                                  |  |  |  |

#### Net Pension Liability

Net pension liabilities are calculated at the system-wide level and are allocated to employers based on their proportionate share. UAL Side Accounts are included as assets in this calculation. The rate setting actuarial valuation will continue to allocate the UAL Side Account, transitional or pre-SLGRP liabilities or surpluses as adjustments to the respective employers.

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **OTHER POST-EMPLOYMENT BENEFITS (OPEB) RHIA:**

Oregon Public Employees Retirement Systems' (OPERS) Retiree Health Insurance Account (RHIA)

#### Plan Description

The District contributes to the Oregon Public Employees Retirement Systems' (OPERS) Retiree Health Insurance Account (RHIA), a cost-sharing multiple-employer defined benefit post-employment healthcare plan administered by the Oregon Public Employees Retirement Board (OPERB). The plan, which was established under Oregon Revised Statutes 238.420, provides a payment of up to \$60 per month towards the costs of health insurance for eligible OPERS retirees. RHIA post-employment benefits are set by state statute. The plan was closed to new entrants hired on or after August 29, 2003.

To be eligible to receive this monthly payment toward the premium cost the member must: (1) have eight years or more of qualifying service in OPERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in OPERS, (2) receive both Medicare Parts A and B coverage, and (3) enroll in an OPERS-sponsored health plan. A surviving spouse or dependent of a deceased OPERS retiree who was eligible to receive the subsidy is eligible to receive the subsidy if he or she (1) is receiving a retirement benefit or allowance from OPERS or (2) was insured at the time the member died and the member retired before May 1, 1991.

Employer contributions are advance-funded on an actuarially determined basis. There is no inflation assumption for RHIA postemployment benefits because the payment amount is set by statute and is not adjusted for increases in healthcare costs.

A comprehensive annual financial report of the funds administered by the OPERB may be obtained by writing to Oregon Public Employees Retirement System, P.O. Box 23700, Tigard, OR 97281-3700, by calling (503) 598-7377, or by accessing the OPERS web site at https://www.oregon.gov/pers/Pages/Financials/Actuarial-Financial-Information.aspx.

#### **Funding Policy**

Participating employers are contractually required to contribute at a rate assessed bi-annually by the OPERB. For the fiscal year ended June 30, 2023, PERS employers contributed 0.05% of PERS-covered salaries for Tier One and Tier Two members to fund the normal cost portion of RHIA benefits. No unfunded actuarial liability (UAL) rate was assigned for the RHIA program as it was funded over 100% as of December 31, 2019. Typically, PERS employers contribute an actuarially determined percent of all PERS-covered salaries to amortize the unfunded actuarial accrued liability over a fixed period with new unfunded actuarial accrued liabilities being amortized over 10 years. These rates were based on the December 31, 2019, actuarial valuation.

#### **Contributions**

The District's contributions to OPERS' RHIA for the years ended June 30, 2024, 2023, and 2022 were \$627, \$3,180, and \$3,589 respectively, which equaled the required contributions for the year.

#### Actuarial Methods and Assumptions Used in Developing Total (OPEB) RHIA Liability

All assumptions, methods and plan provisions used in these calculations are described in the Oregon PERS Retirement Health Insurance Account Cost Sharing Multiple Employer Other Postemployment Benefit (OPEB) Plan Schedules of Employer Allocations and OPEB Amounts by Employer report, as of and for the Year Ended June 30, 2023. That independently audited report was dated December 1, 2023 and can be found at: www.oregon.gov/pers/Documents/Financials/ACFR/2023-ACFR.pdf

Actuarial valuations of an ongoing plan involve estimates of value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The method and assumptions shown are based on the 2020 Experience Study which is reviewed for the four-year period ending July 20, 2021.

#### Discount Rate

The discount rate used to measure the total OPEB liability was 6.90 percent. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### OTHER POST-EMPLOYMENT BENEFITS (OPEB) RHIA (Cont.):

#### Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in January 2023 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Table 31 on page 92 shows Milliman's assumptions for each of the asset classes in which the plans were invested at that time based on the OIC long-term target asset allocation. The OIC's description of each asset class was used to map the target allocation to the asset classes shown on page 74. Each asset class assumption is based on a consistent set of underlying assumptions and includes adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of return for each major class, calculated using both arithmetic and geometric means, see Pension Plan note disclosure above or the PERS' audited financial statements at:

www.oregon.gov/pers/Documents/Financials/ACFR/2023-ACFR.pdf

#### Sensitivity Analysis

The following presents the employer's proportionate share of the net OPEB liability/(asset) calculated using the discount rate of 6.90 percent, as well as what the employer's proportionate share of the OPEB liability/(asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.90 percent) or 1-percentage-point higher (7.90 percent) than the current rate:

|   | 1%    | 1% Decrease |       | Discount Rate |    | % Increase |
|---|-------|-------------|-------|---------------|----|------------|
|   | 5.90% |             | 6.90% |               |    | 7.90%      |

#### OPEB Liabilities/(Assets), OPEB Expense, and Deferred Outflows and Inflows of Resources Related to OPEB

At June 30, 2024, the District reported a net OPEB RHIA liability/(asset) of \$(590,849) for its proportionate share of the net OPEB RHIA liability/(asset). The OPEB liability/(asset) was measured as of June 30, 2023, and the total OPEB RHIA liability/(asset) used to calculate the net OPEB RHIA liability/(asset) was determined by an actuarial valuation as of December 31, 2021. Consistent with GASB Statement No. 75, paragraph 59(a), The District's proportion of the net OPEB RHIA liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. As of the measurement date of June 30, 2023, the District's proportion was 0.16136100 percent. OPEB RHIA expense/(income) recorded for the year ended June 30, 2024, was \$(24,705).

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### OTHER POST-EMPLOYMENT BENEFITS (OPEB) RHIA (Cont.):

At June 30, 2024, the employer reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

|   | Deferred<br>Outflows of<br>Resources |       | D   | Deferred<br>Inflows of |  |
|---|--------------------------------------|-------|-----|------------------------|--|
|   |                                      |       | Inf |                        |  |
|   |                                      |       | Re  | sources                |  |
|   |                                      |       |     |                        |  |
| Differences between expected and actual experience      | \$                                   | -     | \$  | 14,833                 |  |
| Changes of assumptions                                  |                                      | -     |     | 6,371                  |  |

| investments   |                                      | 1,676 |     | -                      |  |
| Changes in proportionate share                          |                                      |       |     | 57,458                 |  |
| Total Deferred Outflows/Inflows                         | \$                                   | 1,676 | \$  | 78,662                 |  |
| Post-measurement date contributions                     |                                      | 627   |     | N/A                    |  |
| Total Deferred Outflow/(Inflow) of Resources            | \$                                   | 2,303 | \$  | 78,662                 |  |
| Net Deferred Outflow/(Inflow) of Resources              |                                      |       |     |                        |  |
| prior to post-measurement date contributions            |                                      |       |     | (76,986)               |  |

Contributions of \$627 were made subsequent to the measurement date, but prior to the end of the District's reporting period. These contributions, which are reported as deferred outflows of resources related to OPEB, will be included as a reduction of the net OPEB liability in the next fiscal year.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in pension expense/(income) as follows:

| Employer subsequent | Deferred Outflow/(Inflow) of Resources (prior |  |  |  |  |
|---------------------|---|--|--|--|--|
| fiscal years        | to post-measurement date contributions)       |  |  |  |  |
| 1st Fiscal Year     | \$ (72,461)                                   |  |  |  |  |
| 2nd Fiscal Year     | (34,193)                                      |  |  |  |  |
| 3rd Fiscal Year     | 21,836  |  |  |  |  |
| 4th Fiscal Year     | 7,832   |  |  |  |  |
| Thereafter          | <del></del> _                                 |  |  |  |  |
| Total               | \$ (76,986)                                   |  |  |  |  |

#### **Changes Subsequent to the Measurement Date**

We are not aware of any changes subsequent to the June 30, 2023, Measurement Date that meet this requirement and thus require a brief description under the GASB standard.

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### OTHER POST-EMPLOYMENT BENEFITS (OPEB) OEBB:

OEBB Health Insurance Subsidy

#### Plan Description

The District operates a single employer retiree benefit plan through the Oregon Educators Benefit Board that provides post-employment health, dental vision and life insurance benefits to eligible employees and their spouses. The District is required by Oregon Revised Statutes 243.303 to provide retirees and their dependents with group health insurance from the date of retirement to age 65 at the same rate provided to current employees. Premiums for retirees are tiered and based upon the premium rates available to active employees. The retiree is responsible for any portion of the premiums not paid by the Employer. In some cases, the premium itself for retirees, does not represent the full cost of medical coverage (as retirees can be expected to generate higher medical claims and therefore higher premiums than the active population). Providing the same rate to retirees as provided to current employees, raises the medical premium rates for the entire employee group. This additional cost is called the "implicit subsidy" and is required to be valued under GASB 75. This "plan" is not a stand-alone plan, and therefore, does not issue its own financial statements.

#### **Funding Policy**

When the District has retirees participating in their health insurance plan, it will, when applicable, collect insurance premiums from all retirees each month and deposit them. The District will then pay healthcare insurance premiums for all retirees at the applicable rate for each family classification.

At June 30, 2024, the District reported an estimated net OPEB OEBB liability/(asset) of \$1,299,666 for its proportionate share of the net OPEB liability/(asset). The OPEB OEBB liability/(asset) was measured as of June 30, 2023, and the total OPEB OEBB liability/(asset) used to calculate the net OPEB OEBB liability/(asset) was determined by an actuarial valuation as of December 31, 2021. Consistent with GASB Statement No. 75, paragraph 59(a), The District's proportion of the net OPEB OEBB liability/(asset) is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers. Based on the measurement date of June 30, 2023, the District's estimated OPEB OEBB expense/(income) for the year ended June 30, 2024 was \$67,104.

#### **Actuarial Methods and Assumptions**

The District engaged an actuary to perform an evaluation as of July 1, 2023 using entry age normal Actuarial Cost Method. The assumptions are generally based upon those used for valuing pension benefits under Oregon PERS, and were developed in consultation with Milliman. The total OPEB liability was determined by an actuarial valuation as of the valuation date, calculated based on the discount rate and actuarial assumptions below, and was then projected forward to the measurement date

| Discount Rate                               | 3.75%                         | 4.00%                             |

Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### OTHER POST-EMPLOYMENT BENEFITS (OPEB) OEBB (Cont.):

In order to apply the entry age normal actuarial cost method, Projected Benefit Payments are determined for each active employee and retiree. These Projected Benefit Payments are the net benefits estimated to be payable in all future years. The net benefits for a particular year are the difference between the total cost of benefits and the portion of the benefits paid by the retirees in that year. The Present Value of Benefits is then allocated over the service of each active employee from their date of hire to their expected retirement age, as a level percent of the employee's pay, as required under GASB 75. This level percent multiplied by expected pay is referred to as the Service Cost, and is the portion of the Present Value of Benefits attributable to an employee's service in a given year. The Service Cost equals \$0 for retirees. For purposes of projecting benefits prior to the valuation date as required by the actuarial cost method, we assumed a health cost trend equal to the ultimate health cost trend rate. The Total OPEB Liability is the portion of the Present Value of Benefits that is attributable to employee service prior to the valuation date. For retirees, the Total OPEB Liability equals the Present Value of Benefits.

#### The Discount Rate

The Discount Rate is a single rate of return that is applied to the Projected Benefit Payments in order to calculate the Present Value of Benefits. Under GASB 75, for plans without assets, the discount rate is equal to a yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher.

Mortality rates were based on the Pub-2010 Healthy Retiree tables. The Mortality Table reflects recent rates developed by the Society of Actuaries.

Demographic assumptions regarding retirement, mortality, and turnover are based on Oregon PERS valuation assumptions as of December 31,2022. Election rate and lapse assumptions are based on experience implied by valuation data for this and other Oregon public employers.

Starting per capita costs are based on premium rates. The same rates are charged for actives and pre-Medicare retirees. When an employer provides benefits to both active employees and retirees through the same plan, the benefits to retirees should be segregated and measured independently for actuarial measurement purposes. The projection of future retiree benefits should be based on claims costs, or age-adjusted premiums approximating claims costs, for retirees, in accordance with actuarial standards issued by the Actuarial Standards Board. As such, premiums were estimated for pre-Medicare retirees based on average ages and assumptions on the relationship between costs and increasing age (Morbidity).

#### Sensitivity Analysis

The following presents the total OPEB liability of the Plan, calculated using the disclosure discount rate as well as what the Plan's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate. A similar sensitivity analysis is then presented for changes in the healthcare cost trend assumption.

|  | 1% Decrease 2.75% |            | Discount Rate 3.75% |           | 1% Increase<br>4.75% |            |

#### Changes Subsequent to the Measurement Date

We are not aware of any changes subsequent to the June 30, 2023 Measurement Date that meet this requirement and thus require a brief description under the GASB standard.

# Notes to the Basic Financial Statements (Cont.) June 30, 2024

#### **CONTINGENT LIABILITIES:**

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amount, if any, to be immaterial.

The District is not currently named as a defendant in any pending or threatened litigation.

#### **RISK MANAGEMENT:**

The District is exposed to various risks of loss related to limited torts; theft of, damage to, and destruction of assets; errors and omissions and natural disasters. The District is joined together with other school districts and special districts in the state, which are members of Special Districts of Oregon (SDOA). SDOA oversees the Special Districts Insurance Services Trust, a public entity risk pool currently operating as a common risk management and insurance program for member governments. The District has an annually renewable contract to pay SDOA an annual premium for its general liability, property liability, automobile liability, boiler and machinery, comprehensive crime, and umbrella insurance coverage.

The District carries commercial insurance for all other losses, including workers' compensation and employee health and accident insurance. Premiums to the health insurance company are paid through a combination of employer contributions and payroll withholdings for eligible employees.

The District came under the State Unemployment Act as of July 1, 1974. The District has elected to pay State Unemployment Insurance to the State of Oregon to pay for any claims paid to former employees.

There have been no significant reductions in coverage from the prior years and settlements have not exceeded insurance coverage in the past three years.

#### INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS:

Interfund transfers for the year ended June 30, 2024, were as follows:

| Fund                      |       | Frans fe rs Out | Trans fers In |
|---------------------------|-------|-----------------|---------------|
| General Fund #100         | \$    | 2,428,206       | \$ 1,552,947  |
| Special Revenue Fund #200 |       | -               | 777,782       |
| Debt Service Fund #300    |       | -               | 97,477        |
| Tota                      | al \$ | 2,428,206       | \$ 2,428,206  |

The transfer out of the general fund to the special revenue fund was made to provide funding for service and program activity.

# SCHEDULE OF LONG-TERM DEBT TRANSACTIONS

For the Fiscal Year Ended June 30, 2024

#### Series 2020 GO Bonds Refunding

On March 10, 2021 the District issued federally taxable general obligation refunding bonds of \$24,680,000 to partially refund outstanding bonds of the Series 2013 General Obligation with a \$24,680,000 to partially refund outstanding bonds of the Series 2013 General Obligation with a true interest cost of 2.09% and an average coupon rate of 1.97%. The net proceeds after payment of underwriting fees and other issuance costs were used to purchase U.S. Government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for future debt service payments of the May 23, 2013 and July 23, 2013 general obligation bonds. The refunding reduced total debt service by \$2,176,396 and obtained an economic gain defined as the difference between the present values of the debt service payments on

# REPORT ON LEGAL AND OTHER REGULATORY REQUIREMENTS

# Jefferson School District No. 509J

# INDEPENDENT AUDITOR'S REPORT REQUIRED BY OREGON STATE REGULATIONS

As of June 30, 2024

To the Governing Body of the Jefferson School District No. 509J Jefferson, Oregon

We have audited the basic financial statements of the Jefferson School District as of and for the year ended June 30, 2024, and have issued our report thereon dated December 24, 2024. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

#### Compliance

As part of obtaining reasonable assurance about whether the Jefferson School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, noncompliance with which could have a direct and material effect on the determination of financial statements amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion.

We performed procedures to the extent we considered necessary to address the required comments and disclosures which included, but were not limited to the following:

- Deposit of public funds with financial institutions (ORS Chapter 295).
- Indebtedness limitations, restrictions, and repayment.
- Budgets legally required (ORS Chapter 294).
- Insurance and fidelity bonds in force or required by law.
- Programs funded from outside sources.
- Authorized investment of surplus funds (ORS Chapter 294).
- Public contracts and purchasing (ORS Chapters 279A, 279B, 279C).
- State school fund factors and calculation.

In connection with our testing, nothing came to our attention that caused us to believe the District was not in substantial compliance with certain provisions of laws, regulations, contracts, and grants, including the provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules 162-10-000 through 162-10-320 of the Minimum Standards for Audits of Oregon Municipal Corporations, except for:

• Over expenditure of appropriations in one fund

#### OAR 162-10-0230 Internal Control

THE

In planning and performing our audit, we considered the District's internal control over financial reporting as a basis for designing our auditing procedures to express our opinion on the financial statements, but not to express an opinion on the effectiveness of the District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

This report is intended solely for the information and use of the Board of Directors and management of Jefferson School District and the Oregon Secretary of State and is not intended to be and should not be used by anyone other than these parties.

Steve Tuchscherer, CPA Umpqua Valley Financial Roseburg, Oregon

December 24, 2024

# **SINGLE AUDIT SECTION**

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Jefferson School District No. 509J

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States the financial statements of the governmental activities and each major fund of Jefferson School District No. 509J, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Jefferson School District No. 509J's basic financial statements and have issued our report thereon dated December 24, 2024.

# Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Jefferson School District No. 509J's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances to express our opinion on the financial statements, but not to express an opinion on the effectiveness of Jefferson School District No. 509J's internal control. Accordingly, we do not express an opinion on the effectiveness of Jefferson School District No. 509J's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Jefferson School District No. 509J's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

# **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the organization's internal control or compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Directors Jefferson School District No. 509J

# Report on Compliance for Each Major Federal Program

We have audited Jefferson School District No. 509J's compliance with the types of compliance requirements described in the OMB *Circular Compliance Supplement* that could have a direct and material effect on each of Jefferson School District No. 509J's major federal programs for the year ended June 30, 2024. Jefferson School District No. 509J's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Jefferson School District No. 509J's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above could have a direct and material effect on a major federal program. An audit includes examining, on a test basis, evidence about Jefferson School District No. 509J's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Jefferson School District No. 509J's compliance.

# **Opinion on Each Major Federal Program**

In our opinion, Jefferson School District No. 509J complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

### **Report on Internal Control over Compliance**

The management of Jefferson School District No. 509J is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit, we considered Jefferson School District No. 509J's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances to express an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to express an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jefferson School District No. 509J's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in Internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Notes to the Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2024

# **NOTE 1 – BASIS OF PRESENTATION**

The accompanying schedule of federal awards (the "Schedule") includes the federal award activity of Jefferson School District No. 509J under programs of the federal government for the year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Jefferson School District No. 509J, it is not intended to and does not present the financial position, changes in net assets, or cash flows of Jefferson School District No. 509J.

# NOTE 2 – <u>SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES</u>

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

# **NOTE 3 – INDIRECT COSTS RATE**

Jefferson School District No. 509J has elected to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance, or other approved rate that is lower.

Schedule of Findings and Questioned Costs For the Year Ended June 30, 2024

# Section I—Summary of Auditor's Results

- 1. The auditor's report expresses an unqualified opinion on the financial statements of Jefferson School District No. 509J in accordance with GAAP.
- 2. No material weaknesses or significant deficiencies in internal control related to the financial statement audit were identified which are required to be reported.
- 3. No instances of noncompliance material with the financial statements of Jefferson School District No. 509J were disclosed during the audit.
- 4. The auditor's report on compliance for the major federal award program expresses an unmodified opinion.
- 5. The audit did not disclose any findings that are required to be reported.
- 6. The programs tested as a major program were the
  - o Impact Aid AL# 84.041 cluster
  - o Social Services Block Grant AL# 93.667 cluster
  - o National School Lunch Program Cluster AL# 10.555, 553, 558
- 7. The threshold for distinguishing between Type A and B programs was \$750,000.
- 8. The District was determined to not be a low-risk auditee.

# **Section II—Financial Statements Findings**

No findings related to the financial statements are reported in accordance with *Government Auditing Standards* for the year ended June 30, 2024.

# Section III—Findings and Questioned Costs for Federal Awards.

No matters were reported relating to significant deficiencies, material weaknesses, or instances of noncompliance related to the financial statements that are required to be reported in accordance with paragraphs 5.18 through 5.20 of *Government Auditing Standards*.

# Section IV—Summary Schedule of Prior Audit Findings

There were no findings for the fiscal year ended June 30, 2024.
